This Week's Highlights

- Nursery have been listening to the story "Isabella's Secret," Isabella has heard a tinkling sound in her garden but doesn't know what it is. The children explored our school field listening for sounds to try and help Isabella discover what it could be.
- In Reception, we have started the story of The Scarecrows' Wedding. The children have been thinking of ways to help Harry and Betty, including filling jugs of water for capacity, creating story maps of Harry's route and learning all about mountain rescue.
- Year 1 have been using globes and atlases to locate the North and South Poles, and the Equator. They have discussed how native animals, and those found in the North and South Poles, adapt to their environment.
- Year 2 have been exploring the concept of pulse (steady beat) in music and playing along to the pulse of Indian music in our own class bands!
- Year 3 have been learning about the grisly origins of the 'Ring o Roses' song, learning about the Great Plague of 1665-66. The children have been fascinated!
- Year 4 have been learning all about Lent and it was interesting to find out what they would sacrifice. Their homeless poems have also been entered into the competition. Fingers crossed!
- Year 5 had the best time mummifying mackerel on Wednesday morning, thank you so much to all of the family members who came in to support this. We hope the experience wasn't too smelly or revolting for you! We will post some photos online of the day, so please do check the website!
- Years 5 and 6 have been working with the NSPCC this week to reinforce the important message that all children are precious and abuse in any form is not OK. They learned about keeping themselves safe in a range of situations. Please feel free to ask your child what they have learned during the workshops.
- The whole school have thoroughly enjoyed taking part in our fantastic Spanish day! Thank you so much to Senorita Kellett for all her hard work in setting up the day.

Problems of the Week

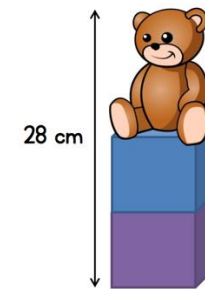

For a chance to win a fabulous maths puzzle, complete one of the problems below and post the answer in the box in the foyer. Remember, you can write your answer on any paper, just remember to write your name on it.

This week, all children who complete the problem of the week will earn a Dojo

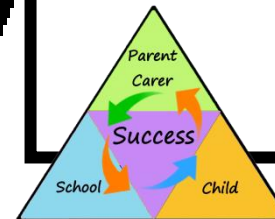

A teddy sits on top of two cubes.

The teddy is 12 cm tall.

Each cube has the same height.

What is the height of each cube?
