Autumn

1

Your new reading ambassadors are:

Year 2 - Amber F, Aisha

Year 3 - Lila W, Neriman, Olivia, Layla S

Year 4 - Scarlett L, James P

Year 5 - India B, Ella, Lojanesh, Lexi

Year 6 - Liara, Tyler T, Grace F

I want to help people read more because reading is fun. I like chapter reading books as I get to learn lots of new words.

It's exciting when I get a new book as they are shiny and clean. I like non-fiction because they are true, even if they are bad!

I read for the fun of it! The more you do it, the more you learn and get faster at it.

I love books. I read anything because you get to learn lots!

What do you like to read?

Books help me to learn. I like Dorothy and The Wizard of Oz because you can go on magical adventures.

I love reading anything! It's like a movie in your head that teaches you things as you go!

I love Jack and the Beanstalk because the ogre is a bit clever but also incredibly stupid. It would be good to survey people to find out what genre they like.

I like reading Harry Potter. I think we could put posters around school with suggestions so other people can read books they like.

Anything!! It's very interesting and can discover and share facts.

I like dark, gory books like "Into The Wild". The author has lots of enthusiasm writing drama full of detail. I'd love more trips to the library.

"The Flower Boy" is great because it is very funny and is about the past. The characters are fascinating. I would recommend it!

I really like our class novel because every chapter has an adventurous way to get to a new place. I think the homeless man is interesting because he shares all the chapters of his life with the rabbit, everything he has been through.

Diary of a Wimpy Kid is really relatable. I could read for ½ an hour or more and not realise.

Room 13. I love scary adventure, but also realistic books like Private Peaceful.

Raffle Time!

Do you want to be the school's best reader AND have a shiny, new book for being one?

Every time you read 3 times at home you get a magic raffle ticket. This ticket will go into Ralph, the Reading, Raffle, Robot.

Every week 3 raffle tickets will be chosen by Ralph and 3 lucky readers will be able to choose a book for themselves to take home and wow their friends.

Which book will YOU choose?

Are you a maths whizz?

Are you crazy about puzzles?

Have you become a times table supremo?

Have you collected so many coins and jewels that you could set up your own shop??

Our Year 6 Maths Ambassadors want to hear from YOU! Bruno and Thomas will be recruiting the new Maths Ambassadors for this year. They want to know if you have got what it takes to share your knowledge with not just your year group, but the school.

What could be made better? What works really well? Do you think you could be an ambassador for maths and share your great ideas?

If so, contact Miss Knowles or Thomas and Bruno to register your interest.

Thomas

I've been out and about around Allanson Street asking people from each year group what they are learning this half term.

This is what they reported:

Bruno

These are the maths competitions that we run each week. You can see the results in our school newsletter:

So far, Timetables Rockstars winners have been mainly the boys, and in Year 3

This half term has seen Maths Whizz winners being mainly in Y5.

Numbots winners have mainly been in Reception and Year 1.

NUMBOTS

Listen out in assembly for the next battles and their winners. Could you knock Year 5 and Year 3 off the top spot?

Year 6: We have been learning about primes from 1 up to 100. We have also looked at all prime factors of larger numbers like 24 and 28, etc.

Thomas

Year 5: Year 5 have been learning about exchanging numbers with 5 columns. We have been practising how to set out the workings correctly.

Adnan

Year 4: We have been doing column addition and subtracting. We have also been practising exchanging.

Matthew

Year 3: We have been revisiting telling the time and practising simple multiplication with single digits.

Charlie

Year 2: We have been doing part whole models and learning how to do our 3 times table up to 30.

Ishat

Year 1: We have been doing number bonds up to 10. We have been looking at how many possible combinations can make 10.

Isla
